**UNITED STATES POSTAL SERVICE QUARTERLY DATA COLLECTION REPORT
DOCKET NO. MT2016-1**

GeM Merchant Solution Market Test Data Reporting From January 1, 2017 to March 31, 2017		
	Q2 FY2017	FY2017 YTD Total

The objective of the GeM Merchant Solution market test is to assess the feasibility of a novel service for participating domestic e-commerce merchants and their international customers, which would allow participating domestic e-commerce merchants to offer their international customers the ability, at the time of purchase, to estimate and prepay duties and taxes that the foreign country's customs agency will assess once the shipment arrives in the foreign destination.

¹ In accordance with PRC Order No. 3319, at 20, these costs are disaggregated as described by the Postal Service in its response to Question 2a in Response of the United States Postal Service to Chairman's Information Request No. 1, Docket No. MT2016-1, April 6, 2016, Question 2a.

[REDACTED]

The Postal Service acknowledges that the Commission directed “the Postal Service’s quarterly reports to disaggregate volumes, costs, and revenues based on:

- the specific GeM Merchant agreement,³⁵
- the package’s weight and dimensions (cubic feet),
- the destination country group,
- the shipping method (expedited or deferred delivery), and
- the specific GeM facility used for processing.³⁶

³⁵ To facilitate the Commission’s ability to review this aspect of the data collection, the quarterly reports shall list the GeM Merchant agreements that are newly executed or terminated during the reporting period. This part of the report shall include a serial number unique to each contract, as well as each contract’s effective date and expected termination date.

³⁶ See Response to CHIR No. 1, question 5c; see *also* Response to CIR No. 1, question 6.”²
